

Dear friends

Thank you for volunteering to prepare and serve the after Mass refreshments. The urn and flasks are located in the community room downstairs. It seems easiest to bring the urn on the trolley to the step just outside the community room and fill from the geyser in the men's toilet using the yellow basin located beside the sink at the back of the community room. Those scheduled should aim to be there by 10.20 so water can be boiled and put in flasks before start of Mass.

1. The coffee tables are stored in the porch of the church. Please replace there afterwards.
2. Supplies are stored in a large plastic box downstairs and in drawers underneath - tea, coffee, sugar, stirrers, rubbish bags, cups, lemonade, water and long life milk.
3. Please put the coffee cups into the biscuit tins when putting the coffee in to prevent them blowing over.
4. The washing up buckets and liquids are on the floor beside the drawers. There will be enough hot water left after filling the flasks to put into a bucket for the washing up.
5. Each team between members (adults) should bring 2 litres of milk and some biscuits
